

## Cabinet Shop Worker

McPherson Cabinetry - Duncan, BC

Do you have strong woodworking skills and an eye for detail? The ideal candidate will have a post-secondary cabinetry education, a minimum of 2 years experience in a custom/production woodworking environment. You'll work alongside the other members of our cabinetry team to create an extraordinary product that is in high demand.

This position is full-time, permanent and the salary is commensurate with experience, after the completion of your trial period.

### Job Responsibilities:

- Construct and assemble cabinet components, making sure that all pieces fit the dimensions specified by the foreman and client
- Verify and double check all calculations to ensure alignment of doors, hinges and side panels, always using blueprints or design plans for reference
- Install the appropriate hardware, such as hinges and handles, and order replacement materials when needed
- Maintain a safe and clean working environment.
- Operate and maintain shop machinery ie. CNC, Edgebander etc.

### Job Skills & Qualifications Required:

- Understanding of necessary mathematics
- Knowledge of materials and processing
- Must have exceptional attention to detail
- Enjoy creating with your hands, developing specialised skills and working with a high degree of accuracy.
- CNC knowledge is a huge plus.

Job Type: Full-time
